# DEALERSHOP™

## Dealership problems require dealership-specific solutions.

### Dealer Pays is a Web-Based Dealer-Specific Payments and Point-of-Sale Provider

The Dealer Pay dealer-specific interface provides customers 3X as many ways to pay, which speeds up the check-out process. These user-friendly solutions provide substantial improvements in overall daily workflows for service writers, managers, or cashiers.

Simple and secure payment acceptance in the business office helps keep customers engaged with a positive payment experience.

One click pre-authorized transactions allows for easy capture and tracking. Recurring billing allows you to provide payment plans, automated by any frequency for maximum control.

Detailed reporting and administrative management tools improve overall reconciliation and effective management of each location, department, and user. All supported by secure, cloud-based software.
